Your team reduces the time they spend on repetitive tasks while your community gets timely updates and statuses on their schedule rather than on yours.

HIGHJUMP'S SHIPMENT VISIBILITY AND NOTIFICATION SOLUTION WORKS IN CONJUNCTION WITH OTHER CUSTOMER-FACING APPLICATIONS IN THE HIGHJUMP SUITE TO DELIVER:

- Load Tracking – the unique design supports parcel, TL, and LTL shipments. Keep up to date with current shipment status, last known position, and ETA.
- Freight Order – customers can enter new orders, link pro bills together into orders, and accept rates returned.
- Document Imaging – access current copies of trip documents such as invoices, bill of lading, proof of delivery, and any relevant pictures.
- Dashboards – assemble an array of key performance indicators (KPI) that deliver valuable insight to your customers.
- Reports – deliver customer-specific reports directly through the portal or in their email box.

All of this along with the ability to dock your own web pages in the solution's framework delivers the competitive differentiation you're looking for.
